Languages : Java
Developer Tools : VsCode, Android Studio, Git, Docker
Databases : MySql, Google Firebase
Soft Skills : Teamwork, Problem-solving, time management
Areas of Interest : App Development, Cybersecurity, Video Editing
Platforms : Linux, Windows

PERSONAL PROJECTS

•MUSIC WORLD

This is an music player WebApp.

- Tools & technologies used: HTML5, CSS3, PHP, MySQL
- This project is built as a part of our DBMS mini-project for Learning purposes. The main features of this website go like User and Artist authentication where users can create their own playlists and listen to the songs and artists can even upload songs and create their own albums etc.

•E-PANCHAYAT

This is an Android Application to connect people with their panchayat

- Tools & technologies used: XML, Java, Google Firebase
- This project is built as a part of my academic project. The main features of this Application go like User and PDO authentication where users can post their complaints into the portal and because of the real-time database, the complaints will be instantly reflected on the PDO module so that the panchayat can look into the matter quickly and also user can view schemes and look into the basic details of panchayat members and contact them and PDO can update scheme data and add or delete members data as well and look into the complaints filed by the Users.

COURSES AND CERTIFICATIONS

- **Great Learning :** Java Programming, Oops in Java
